

Image Shower Enclosures are designed for a life time of luxury showering and with a little care and attention you can keep them looking like new for longer. Image strongly recommend that the glass is wiped down after every use with a squeegee, and the framework is dried with a soft cloth.

Top Tips

- Always remove any water remaining on the glass or frame.
- Do not allow lime scale to build up.
- Polish the glass and framework with a domestic glass cleaner once a week.
- Do not leave neat cleaning products on the surfaces.
- Do not use any spray on and leave cleaning products on the aluminium.
- Do not use any spray on and leave cleaning products on the glass with the exception of Image Aftercare cleaner for shower glass, which can be left on for the recommended time and then rinsed off with water.
- Ensure cleaners are non-abrasive and between pH 4 & 8.
- Do not use any cleaning products outside the recommended pH values.
- To remove lime scale a solution of 50:50 Vinegar and Water can also be used.
- Ensure vinegar solution is rinsed thoroughly and polished off with a dry cloth.

To maintain and enhance the performance of coated Image shower glass (Easy clean glass) we recommend using Image Aftercare for shower glass cleaner. Used as a specialist cleaner it will effortlessly remove any build-up of lime scale, stains, dirt and soap scum and will continue to rejuvenate the factory applied protector. Image After care for shower glass is also recommended for use on non-coated glass and is effective on most metals and plastic surfaces. For best results use only as directed, as frequently as required and Image After care for shower glass will ensure you an outstanding, lasting appearance of your Image door.
